VIRTUOSO Structure

The Virtuoso was launched in the spring of 2000 as the Orchestral Module in the new Proteus '2000' range. With 128 voices and 64MB of samples, this was the most comprehensive collection of it's type at the time it was released. From solo to section strings - it's all here! The Virtuoso collection includes all new samples from the same symphony under the most ideal recording conditions. The symphony recorded was the Seattle Symphony and it took over two years to complete.

Also available:

[www.DigitalSoundFactory.com](http://www.DigitalSoundFactory.com) has exclusive license to re-master existing instrument libraries created for E-MU and Creative platforms, and to create brand new libraries from recording sessions that have never been published. DSF libraries provide the opportunity to experience these world-renowned sounds on your computer.
